WORK EXPERIENCE

Data Engineer

Ernst and Young Global Delivery Services

02/2023 - Present

Mumbai, India

Achievements/Tasks

- Designed and developed scalable data ingestion pipelines with medallion architecture using Databricks and PySpark, ensuring optimized performance.
- Built ELT pipelines using dbt and Snowflake, transforming raw data into refined models and enabling modular, testable SQL workflows.
- Created and optimized views, stored procedures, and Snowflake SQL scripts for business-ready datasets.
- Created ADF pipelines to ingest and transform data from multiple sources like flat files, transactional datastore, SharePoint API.
- Developed exception reports using PySpark and SQL, resolving 1,000+ operational issues and improving incident tracking.
- Migrated on-premises SSIS solutions to Azure Data Factory, enhancing scalability and reducing processing time by 20%.
- Implemented Slowly Changing Dimensions (SCD-2) for historical data analysis, enabling deeper business insights.
- Led code reviews, mentored junior developers, and worked on automation and best practices documentation for efficient code deployment and maintenance.

ETL Developer

Tata Consultancy Services

07/2019 - 01/2023

Mumbai, India

Achievements/Tasks

- Designed and developed end-to-end ETL pipelines using SQL, Informatica, Teradata for large-scale data warehousing solution.
- Developed and optimized complex SQL queries for data transformation, improving performance and reducing ETL execution time by 30%.
- Created validation scripts for 200+ SAP source tables, enhancing data accuracy and consistency.
- Migrated few on-premises Informatica PowerCenter workflows to IICS, reducing infrastructure costs and improving scalability.
- Created comprehensive technical documentation for ETL workflows, data models, and transformation logic, improving knowledge transfer and maintainability.
- Provided production support, troubleshooting failures, and optimizing data pipelines for seamless operation.

EDUCATION

B.E - Computer Science

Mumbai University

07/2015 - 05/2019

SKILLS

SQL

Pyspark

ETL

Databricks

Snowflake

Azure Data Factory

Azure Data lake

Informatica

SSIS

Data Warehousing

GitHub

DBT

IICS

GCP (BigQuery, Storage, Cloud Functions, Composer)

ACHIEVEMENTS

Hackathon Runner-up (2024): Recognized during a bootcamp for developing data engineering solution using GCP services like BigQuery, Cloud Functions, and Composer, showcasing adaptability across cloud platforms.

Best Team Awards (2022, 2021): Contributed to resolving critical production issues and meeting tight deadlines.

Performance Awards (2022, 2021): Delivered impactful data solutions under high-pressure scenarios.

CERTIFICATIONS

Databricks Certified Data Engineer Associate
(12/2024 - Present)

Databricks Lakehouse and Generative AI Fundamentals
(05/2023)

Microsoft Certified Azure Data Fundamentals (DP-900)
(10/2023 - Present)

Confluent Kafka Fundamentals (09/2024 - Present)

DBT Fundamentals (09/2024 - Present)
